Producent	Mystim

Opis produktu

These bipolar, conductive body clamps cause tingly and sensual feelings on nipples, labia and other parts of the body. The bipolarity of the clamp ensures that only the zones between the two halves are stimulated - this enables especially intense and consistent stimulation. Content: 1 pair of Mystim Barry Bites. Material: contacts gilded.

Please note: This item is an accessory part for the electronic stimulation device to be ordered separately (item No. 5289270000).
